At St Francis de Sales Primary School, the music program offers basic theoretical lessons, providing students the opportunity to learn to read music (notes, signs and symbols) and practise their theoretical knowledge by using tuned and un-tuned percussion instruments, ukuleles and their voice.

Students also learn to improvise, create and compose music using these instruments, as well as a range of music software.

Through listening to music and watching music performances, students discover and appreciate Classical, World and Modern composers, musicians and singers.

Students practise life-long skills while playing music as a group. They learn to incorporate the school values and the skills necessary to relate with others, whilst having fun creating music together.

Students are given opportunities to perform at assemblies, school and community events.
